STUDENT LIFE AT VANTAGE
We asked our students about their experience at UBC Vantage College...

TRANSITIONING TO UBC
“Since all of us came from different countries and bring different cultural backgrounds, it is very interesting to discover little things that are common or different between countries. Behaviour, language use, and daily habit are different across countries and I found it pretty interesting to see the differences.”

ACADEMIC ENGLISH-FOCUSED PROGRAMS
“I have gained a lot of writing skills that I did not know previously. Secondly, I have gained that skimming is a useful reading skill. Thirdly, I have gained a few presentation skills, like I can say it is an interesting question and I will explore it further in the future when I have no idea about how to answer. I learned how to write references in APA format, and how to write research paper. I also learned how to do a speech. I have to mention that LLED course is very helpful for my academic writing.”

SMALL COHORT CLASSES
“Small spaces make students feel engaged and secured. Also, the learning space provided for students after class time was a very good offer. We really enjoy using classrooms and the study spaces.”

COMMUNITY & PROGRESSION
“This is a unique experience that an international students can have. I have gained a lot of support and made a lot of friends in Vantage. And that is the place you will feel warm, it is like a big group, a family.”
